Index to Volume 47, 1993

Authors

Ainsworth, B: see Rogosheske, VC. *Winter, p. 90*

Andres, FF: Book Review, Rowland, TW (Ed.) *Pediatric Laboratory Exercise Testing: Clinical Guidelines. Summer, p. 46*

Boorman, ML: see Di Brezzo, R. *Winter, p. 84*

Boswell, BB: Movement patterns used wile rising from supine position by children with cerebral palsy. *Fall, p. 52*

Butterfield, SA: Fundamental motor skill performances of deaf and hearing children ages 3 to 8. *Spring, p. 2*

Changsut, R: see Robertson, LD. *Spring, p. 7*

Chase, J: see Butterfield, SA. *Spring, p. 2*

Collins, SR: see Figoni, SF. *Winter, p. 97*

Couch, WP: see Figoni, SF. *Winter, p. 97*

Croce, R: see Horvat, M. *Fall, p. 71*

Di Brezzo, R: Dynamic strength and perceived exertion in active and sedentary women during the menstrual cycle. *Winter, p. 84*

Drowatzky, JN: see McLellan, JC. *Summer, p. 37*

Edwards, BG: Blood glucose responses to low and moderate intensity exercise requiring the same energy output (Abstract only). *Winter, p. 98*

Fielding, L: see Miller, L. *Fall, p. 63*

Figoni, SF: Arm and leg exercise stress testing in a person with quadriparesis. *Summer, p. 25*

Figoni, SF: Increased maximum current improves electrical stimulation leg cycle ergometry performance (Abstract only). *Winter, p. 97*

Fort, IL: see Di Brezzo, R. *Winter, p. 84*

Glaser, RM: see Figoni, SF. *Winter, p. 97*

Glaser, RM: see Schrag, DR. *Winter, p. 99*

Glaser, RM: see Figoni, SF. *Summer, p. 25*

Glaser, RM: see Ponichtera-Mulcare, JA. *Winter, p. 99*

Gryder, N: see Boswell, BB. *Fall, p. 52*

Gupta, SC: see Ponichtera-Mulcare, JA. *Winter, p. 99*

Heitman, RJ: Test-retest reliability of isokinetic knee extension and flexion torque measurements in persons who are mentally retarded. *Spring, p. 17*

Horvat, M: Effects of a circuit training program on individuals with mental retardation. *Fall, p. 71*

Jones, DW: see Robertson, LD. *Spring, p. 7*

Kelly, JM: see Rogosheske, VC. *Winter, p. 90*

Kovaleski, JE: see Heitman, RJ. *Spring, p. 17*

Lieh, J: see Rogers, MM. *Winter, p. 98*

McGhee, T: see Horvat, M. *Fall, p. 71*

McLellan, JC: A comparison of information processing in neurologically normal individuals and individuals with spastic cerebral palsy. *Summer, p. 37*

Mathews, T: see Schrag, DR. *Winter, p. 99*

Mathews, T: see Ponichtera-Mulcare, JA. *Winter, p. 99*

Miller, L: The impact of the Americans with Disabilities Act of 1990. *Fall, p. 63*

Oglesby, B: see Di Brezzo, R. *Winter, p. 84*

Pitts, B: see Miller, L. *Fall, p. 63*

Ponichtera-Mulcare, JA: Maximal aerobic exercise capacity of individuals with multiple sclerosis during arm, leg and combined arm and leg ergometry (Abstract only). *Winter, p. 99*

Ponichtera, JA: see Schrag, DR. *Winter, p. 99*

Ramos, LS: see Robertson, LD. *Spring, p. 7*

Robertson, KB: Book Review, ACVPR, *Guidelines for Pulmonary Rehabilitation Programs. Fall, p. 78*

Robertson, LD: Influence of job and personal risk factors on safety limits for kinesiotherapists performing a stressful clinical lifting task. *Spring, p. 7*

Van der Mars, H: see Butterfield, SA. *Spring, p. 2*

Subjects

Aerobic Exercise
maximal capacity of individuals with multiple sclerosis; *Winter, p. 99*

Americans with Disabilities Act of 1990
impact of; *Fall, p. 63*

Blood Glucose
responses to low and moderate intensity exercise; *Winter, p. 98*

Body Fat
prediction in adult female runners; *Winter, p. 90*

Book Reviews
Guidelines for Pulmonary Rehabilitation Programs; Fall, p. 78
Pediatric Laboratory Exercise Testing: Clinical Guidelines; Summer, p. 46

Cerebral Palsy
movement patterns while rising from supine in; *Fall, p. 52*
information processing in; *Summer, p. 37*

Circuit Training
effect in mentally retarded; *Fall, p. 71*

Ergometry
electrical stimulation and performance; *Winter, p. 97*

Information processing
in spastic cerebral palsy; *Summer, p. 37*

Kinesiotherapy
safety while performing clinical lifting; *Spring, p. 7*

Menstrual Cycle
dynamic strength and perceived exertion during; *Winter, p. 84*

Mentally Retarded
reliability of knee extension and flexion measurements in; *Spring, p. 17*
circuit training program for; *Fall, p. 71*

Motor Skills
motor skill performance in deaf and hearing children; *Spring, p. 2*
movement patterns while rising in children with cerebral palsy; *Fall, p. 52*

Multiple Sclerosis
isokinetic upper extremity strength of; *Winter, p. 99*
aerobic exercise capacity of; *Winter, p. 99*

Quadriplegic
arm and leg stress testing of; *Summer, p. 25*

Measurement and Evaluation
testing person with quadriparesis; *Summer, p. 25*
test-retest reliability of knee measures in mentally retarded; *Spring, p. 17*
prediction of body fat in adult females; *Winter, p. 90*

Strength
isokinetic upper extremity in persons with multiple sclerosis; *Winter, p. 99*

Wheelchair Propulsion
analysis of joint reaction forces and moments during; *Winter, p. 98*
